## A Mentoring Program with Pace High School

In collaboration with our co-located high school, Pace, we launched a peer mentoring program. Pace students applied for positions by writing a short biography and creating a resume. MS 131 teachers culled through these applications and interviewed students for the positions.

Some of Pace's best and brightest students are now working a few hours each week with MS 131 students, helping in class, mentoring them on the playground and forming bonds that connect our two schools more closely together.

For the high school students, they get the chance to experience a job application process and give back to their community. Our middle school students get time with college bound young adults who they look up to for inspiration.

## Mentoring Matters
