

Arts at LMC

At LMC we believe that a strong program in the arts is not enrichment, but instead is a key aspect of middle school instruction. Through the arts middle school aged students have the opportunity to explore, collaborate, and extend their learning. Performance is also an opportunity for a little bit of healthy pressure. It can be scary to dance, play music, or show your art off to hundreds of parents, but the rewards and pride that we feel after a performance builds our confidence.

This past month LMC has hosted our mid-year arts shows for students in all grades. Our shows were special opportunities to share our best with our parent body and broader school community. We capped off the month with a special show done in collaboration with the NYCDOE Office of Arts and Culture. Our 8th grade musicians had the opportunity to play along with members of bands from Billy Joel, to The Spin Doctors and the Saturday Night Live Band!
