PS 183's Green Team

This year, PS 183 is part of the Zero Waste Schools initiative. Our Green Team's motto this year is Reduce, Reuse, Educate. They've been working hard on educating both students and staff about proper recycling in the cafeteria and classrooms. The 4th and 5th graders who make up the Green Team have created a recycling video for every classroom to watch. They are also making efforts to reach zero waste by installing a Refashion bin in our school and purchasing Terracycle boxes to recycle markers and pens. This week, the Green Team is hosting an Earth Week Challenge to celebrate Earth Day! Happy Earth Day! Go Green!
