

## BOOK OF THE MONTH AT PS 234

### Building Strong Habits of Mind

### One Book At a Time

PS 234 dedicates our classrooms to social-emotional learning while enhancing literacy skills by reading a "Book of the Month." Members of our Responsive Classroom committee choose a book each month related to big ideas such as friendship building, managing conflict, respecting difference and persistence. All students in grades K – 5 listen to the same book during read aloud time and discuss the big themes and implications for learning. Students memorialize this work with activities and reflections related to the book. We are building a community of readers and thinkers!
