Spring Art Show at PS 527!

PS 527 is excited to host their annual Spring Art Show on the evening of May 15th and the morning of May 16th. Our art show is a community celebration of authentic children's artwork.

Our art program is based on Teaching for Artistic Behavior (TAB), a choice-based art education practice that regards students as artists and offers the opportunity for children to choose their idea, materials, and duration of their artwork. Each student has chosen their two pieces to display, along with artist statements which explain their idea and creative process, including challenges and successes.

It is a wonderful, memorable evening where families can enjoy the artwork, write rave reviews in students' guest books, enjoy food, listen to live music by our music teacher, take photos with fun art props in the photo booth, and complete an artwork scavenger hunt.
